Hair loss is a common problem. Hair loss occurs when the cycle of hair growth and shedding is disrupted or when the hair follicle is destroyed and replaced with scar tissue.

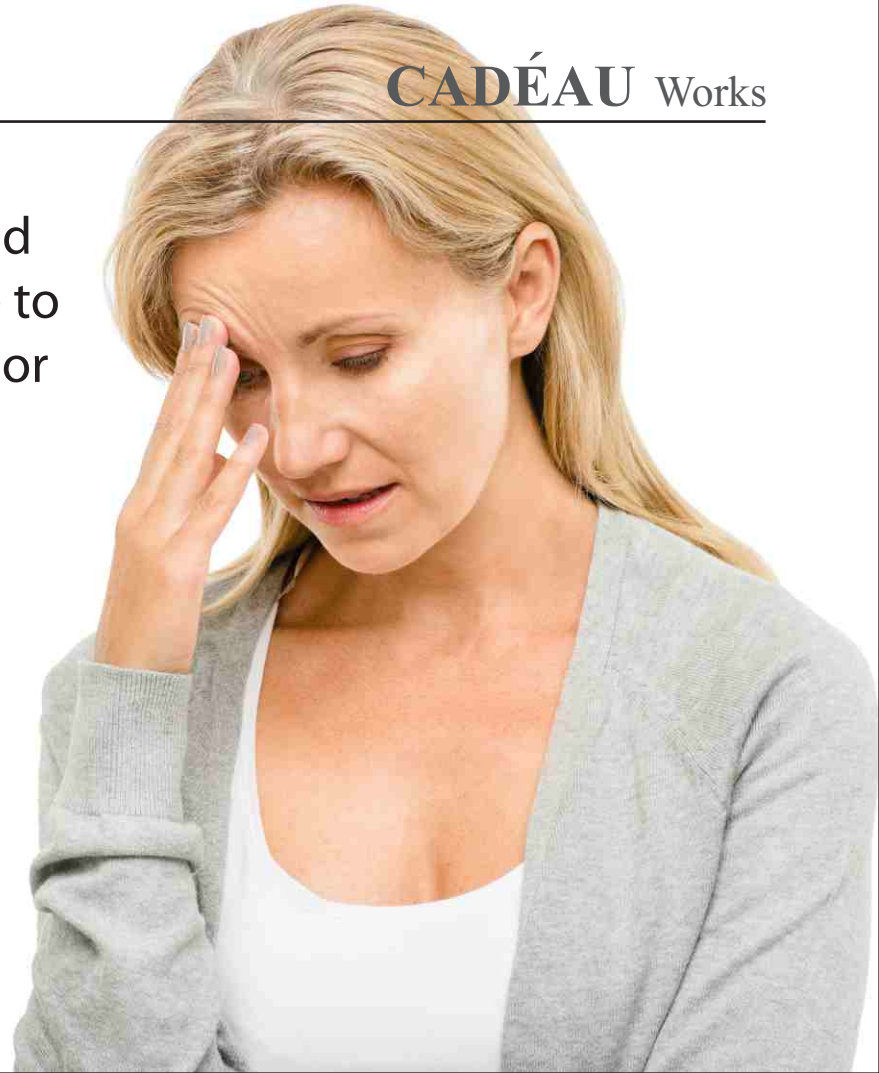

There are several causes of hair loss. Among some are :

1. Family history
2. Hormonal changes
3. Medical conditions
4. Medication

- Heredity hair loss is the most common especially for man and is usually termed as male-pattern baldness or female-pattern baldness.
- It usually occur gradually and in a receding hairline and bald spots in men and thinning in women.

- Hormonal changes and imbalance can be due to pregnancy, childbirth or on set of menopause.
- On the other hand, scalp infection, alopecia areata (body's immune system attacks hair follicles), thyroid problem are some of the examples of medical conditions.

Hair loss might also be due to drugs that we are taking especially those for cancer, heart problem, depression, birth control, high blood pressure etc.

- To use Cadeau Advanced Hair Growth Tonic, brush your hair out and massage the tonic into the hair and scalp.
 - Massaging helps to stimulate circulation to the scalp, promoting scalp health while the tonic moisturizes the hair and the scalp.

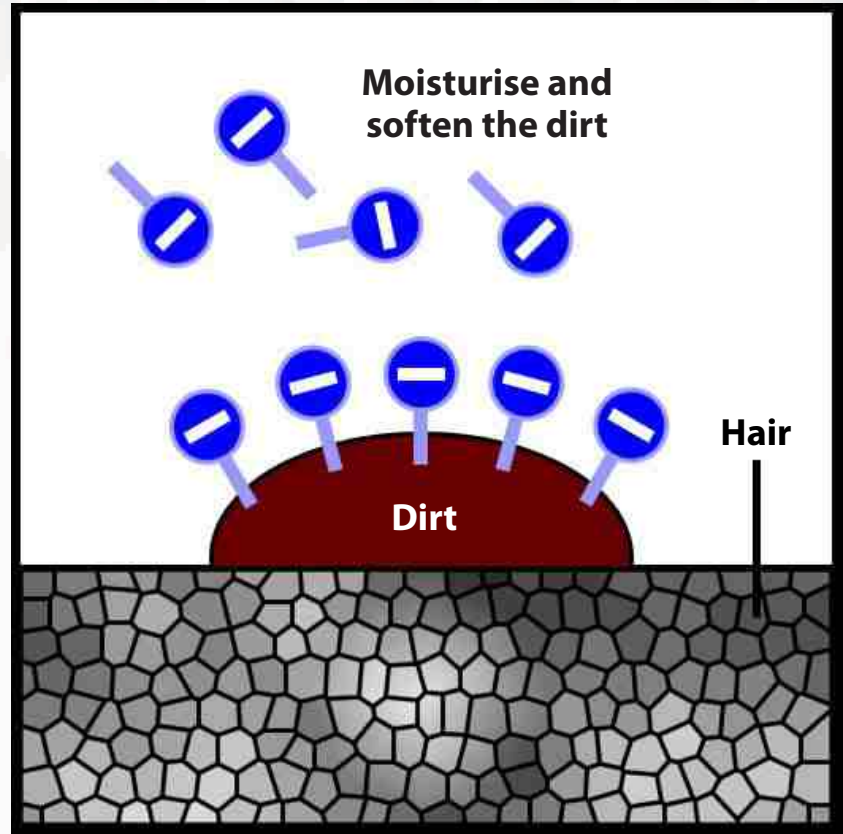

Hair Growth Cycle

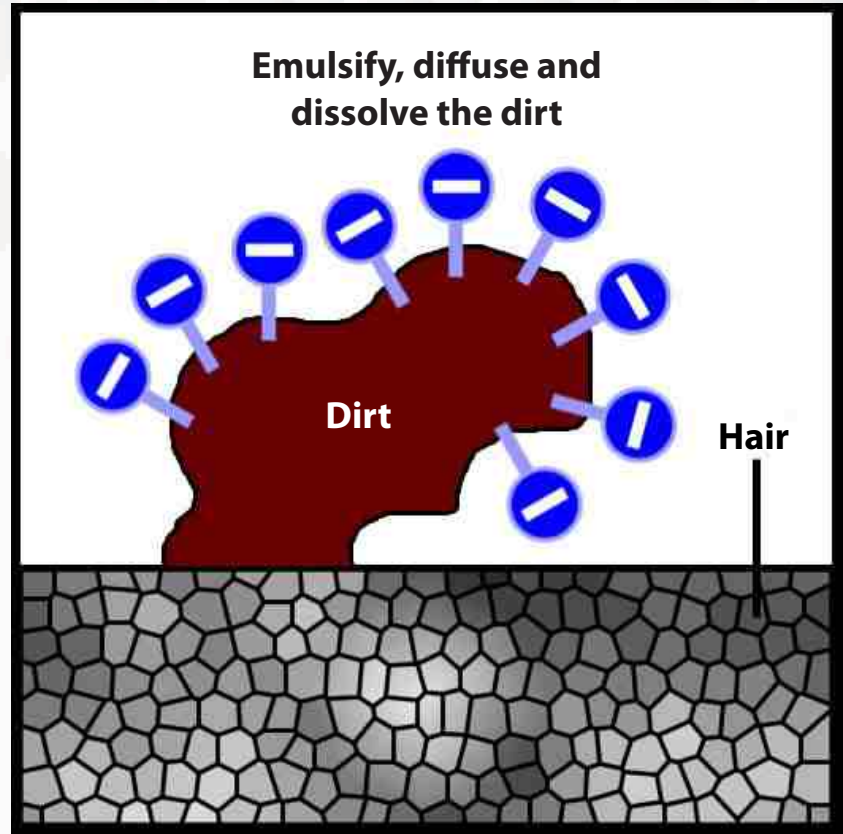

- ① Permanent hair removal can only occur during this active growth stage.
- ② Club hair transitions upwards toward skin pore and dermal papilla begins to separate from follicle.
- ③ Dermal papilla fully separates from follicle.
- ④ Dermal papilla moves upwards to meet hair follicle once again and hair matrix begins to form new hair.

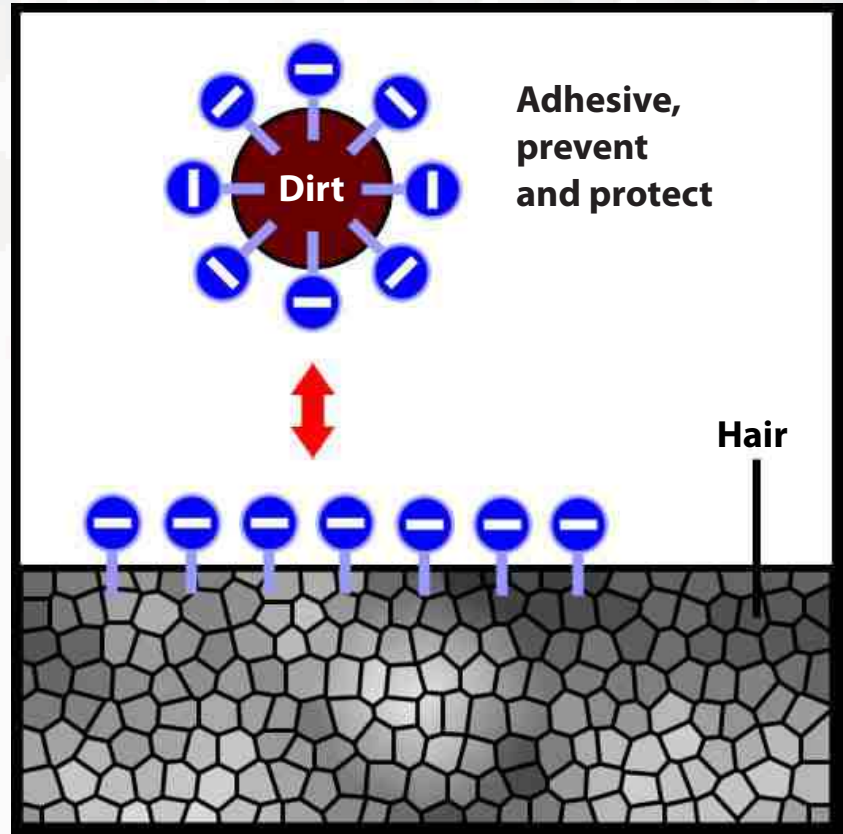

The first step in shampooing is to moisturize and dissolve the dirt on the hair shaft or scalp

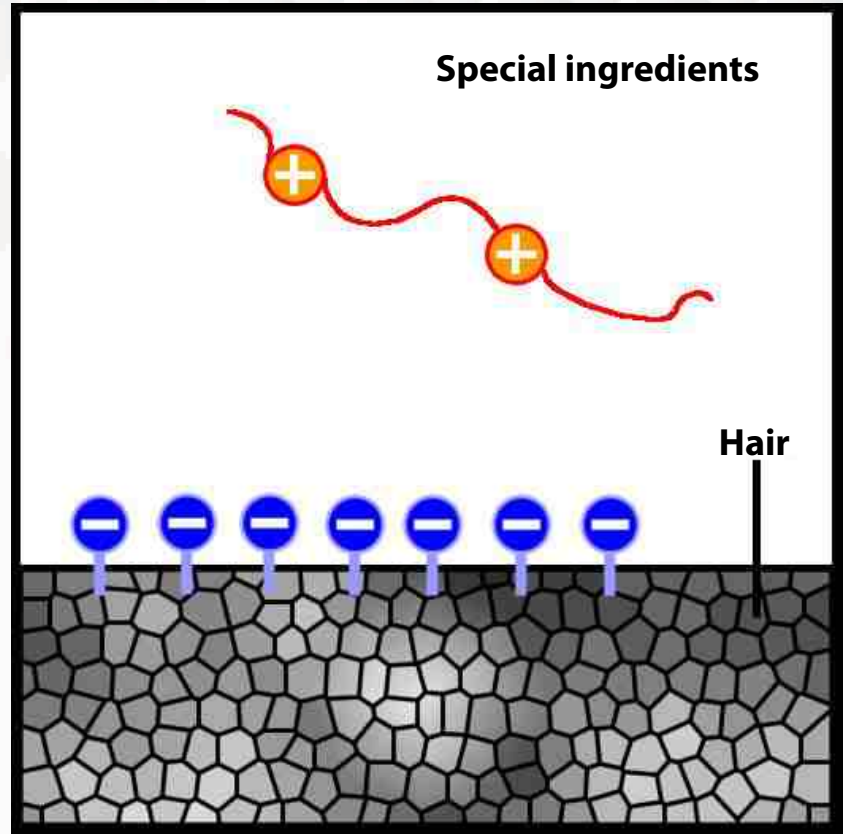

The next step is to emulsify, diffuse and dissolve the dirt particles

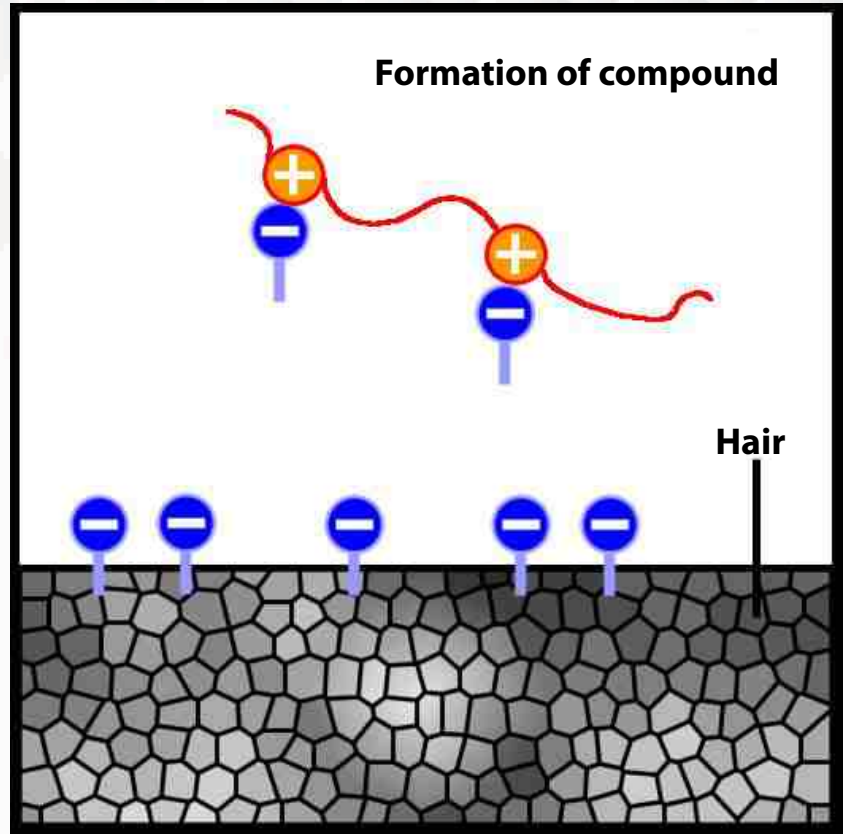

**The dirt particle
will then be
removed from
the hair shaft
or scalp**

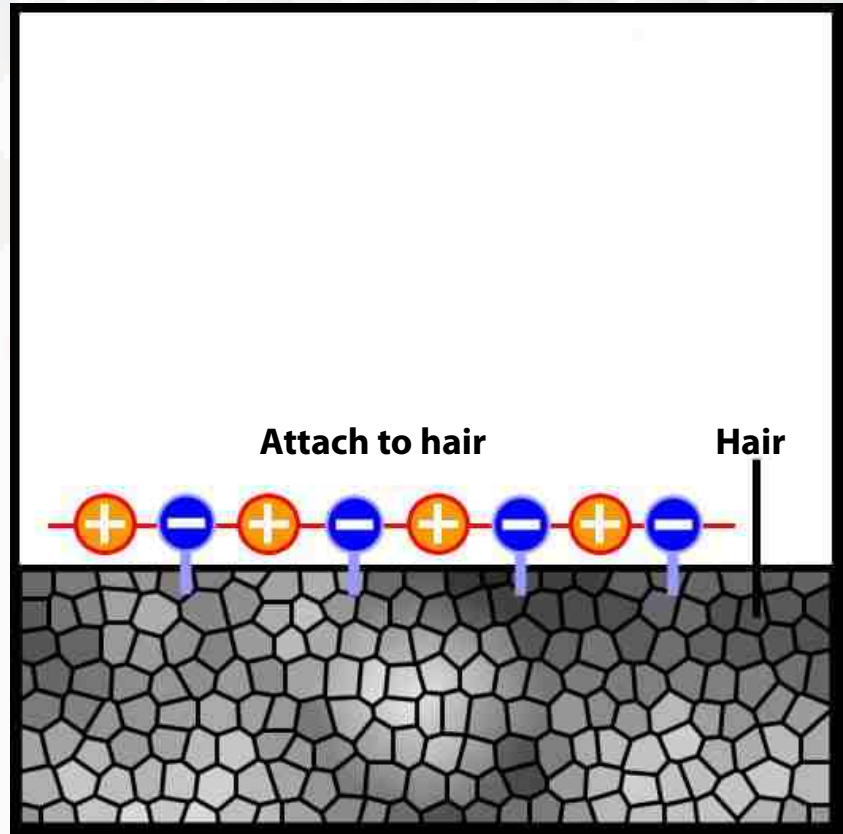

Special ingredients like silicones and ceramides are added

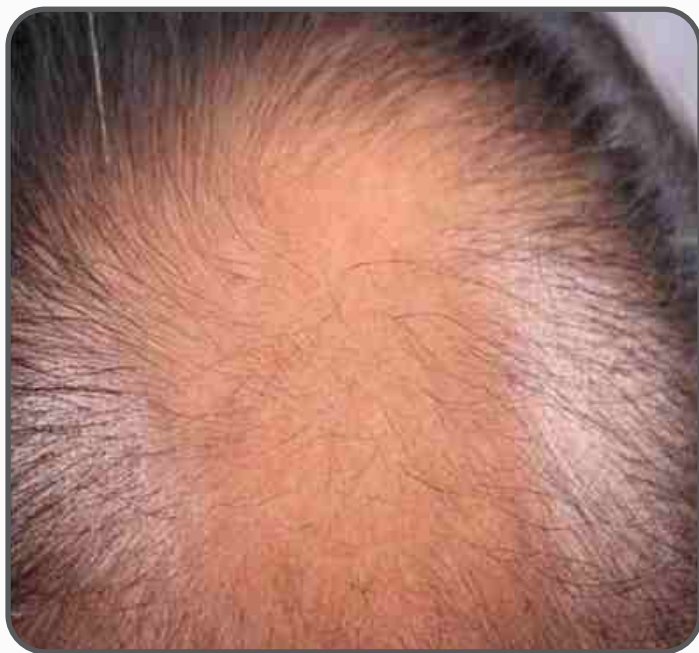

These special ingredients neutralizes the electrical charges

These positive and negative electrical charges neutralizes the hair giving it a light and silky appearance.
